

Jason Boitnott

Director, Enterprise Ground

A Lockheed Martin Level 3 Certified Program Manager, Jason is a resilient, results oriented Leader with a track record of superior performance in dynamic, large scale, complex system development and integration environments. Broad Customer experience to include Air Force, Missile Defense Agency, Commercial and Civil domains. Known as an execution Program Manager, Jason leads execution by ensuring cross functional collaboration, setting challenging and measurable team goals, developing enduring relationships, establishing effective rhythms, institutionalizing metrics and influencing performance. Jason has over a decade of experience on large scale integration programs to include C2BMC and SBIRS Ground with highlights such as delivering the Ground System to launch the SBIRS GEO-1 and GEO-2 Spacecraft, delivering the Ground System to certify SBIRS Spacecraft and Payloads into Operational service. Jason is now responsible for delivering an entirely new SBIRS Ground System that will consolidate the operations of SBIRS assets into a single operating center and deliver unprecedented Missile Warning, Missile Defense, Battlespace Awareness and Technical intelligence capabilities to Air Force, Missile Defense Agency and Intelligence Community Customers. Jason has a BSBA in Finance from the University of Maryland, College Park and a MS in Systems Engineering from Johns Hopkins University Whiting School of Engineering.
