

Guest Speaker: Mr. Doug Loverro

Mr. Doug Loverro is President, Loverro Consulting, LLC, and has over 40 years of space experience in numerous military and civil space organizations. He served as the NASA Associate Administrator for Human Exploration and Operations. Mr. Loverro held two major assignments on the Secretary of Defense's staff. The first as a Staff Assistant for Military Satellite Communications, and the second as the Deputy Assistant Secretary for Defense for Space Policy. He was a Program Director at the NRO, and he's held three different senior leadership positions at Space & Missile

Systems Center: Advanced Systems Program Director, GPS Program Director, and Executive Director and Deputy Program Executive Officer for Space. Other career highlights include serving as Program Manager for Advanced Command, Control, and Communication Systems, Senior ROTC instructor and Commandant of Cadets at the Massachusetts Institute of Technology, and Technical Director for the Chemical Oxygen Iodine Laser System, which was a fundamental component of the Airborne Laser.
